

Semi-Automatic Tape Casting Machine (Batch Type)

(Model : STC-20B)

HANSUNG SYSTEMS developed **Semi-Automatic TAPE CASTING MACHINE (Model STC-20B)** for Medium-Production or R & D Works to make the Green Tape.

The BLADE and slurry Pool are easily take off for cleaning.

And, **Model STC-20B** can make good quality green tape through the mechanism of the Blade height control has high precision.

Applications : Medium-Production or R & D Works for Multi-layer Ceramics Package.,
MLCC, Chip Inductor,
LTCC, Multi-layered RF module. Multi-layered thick film sensor, etc..

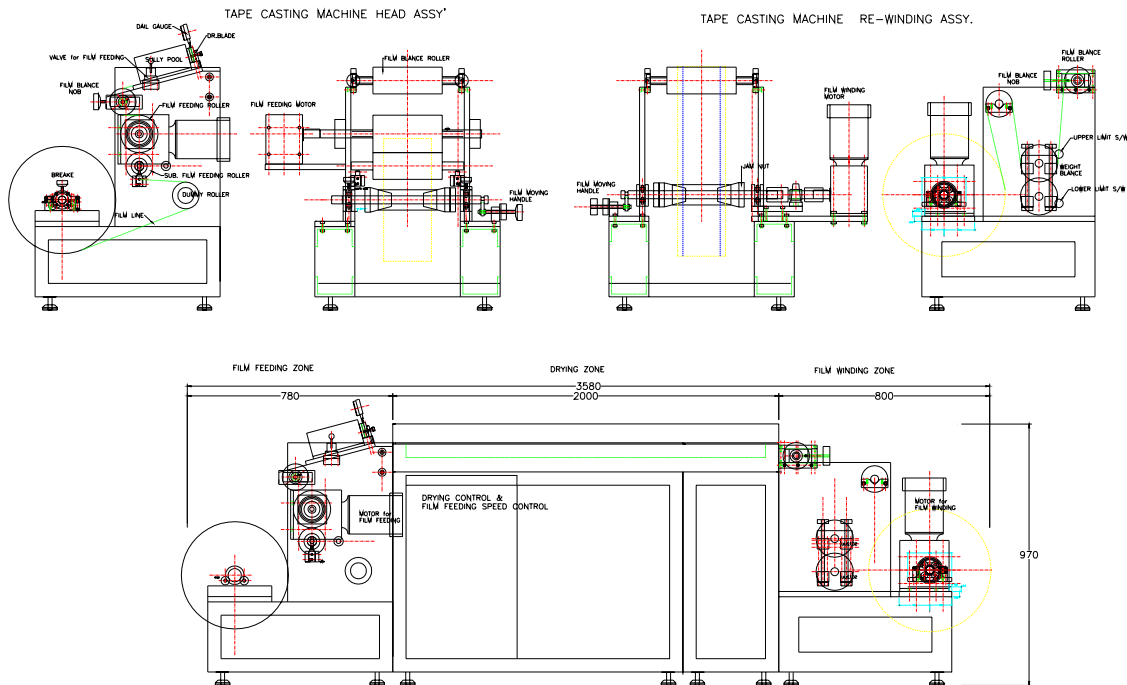

* Above Specification will be changed without notice for machine improve .

CAT No. 020410

Machine Specification (Model STC-20B)

1. The Width of GREEN SHEET : Max. 220 mm
2. The Length of GREEN SHEET : Max. 2,000 mm
(The Width and length can be changed when customer order.)
3. Thickness Control : Digital Gauge (Micron precision). Special designed Tungsten DOCTOR. BLADE and slurry Pool.
4. Machine Speed : 0 - 1,000 mm / min. AC Geared Motor control by Vector Invertor.
5. MECHANICAL Si COATED FILM TENSION MECHANISM can make good quality Green Tape.
6. DRYING ZONE : HEATING Temp. and time control (Room Temp. - 120) :
Through Programmable Heating Controller.
7. The SLURRY PUMPING UNITS. (Standard : 1 liter)
8. MACHINE SIZE : 3600 x 1200 x 1250 mm (W x D x H).
9. UTILITY : - Power : 220 VAC. 3 Phase, MAX. 4 KW.
Compressed Shop Air : Min. 5.5 Kg/cm².

MANUFACTURER :

HANSUNG SYSTEMS, INC.
773, DAPSHIPRI 4-DONG,
DONGDAEMOON-GU,
SEOUL, KOREA.
